

1.4 INTERNATIONAL STUDENTS' POLICY

Outcome statement

That through the enrolment of fee-paying international students, the school promotes opportunities for students and staff from different cultures to work alongside each other in teaching and learning. International students within the school will enhance the school through offering different perspectives and support our student community to become connected global citizens.

Scoping

- The school meets its obligations in relation to enrolling fee-paying international students.
- The international students experience a safe and supportive environment.
- The additional funds received are used to enhance quality teaching and learning.

Delegations

The Board delegates to the Principal full responsibility for the welfare and oversight of international students. Including ensuring an annual budget is developed and the appropriate marketing activity for international students is undertaken. This may involve using the services of agents, visiting target countries and attending international fairs.

Expectations and limitations

1. The school will be compliant with all aspects of the Education (Pastoral Care of International Students) Code of Practice 2021 and any other legal requirements.
2. International Students will be enrolled at the school under a Contract of Enrolment in accordance with the Education and Training Act 2020.
3. Appropriate staff and resources will be allocated by the school for the recruitment, administration and pastoral care requirements of international students.
4. There will be clear procedures in place which relate to this policy.
5. The school takes the care and welfare of international students very seriously, and from 2023 any new international students joining the school will need to be living with their parents or have a designated caregiver based within the Taranaki region who would come and collect the student and assume full responsibility for that student if the hostel was closed, a holiday homestay could not be found, if she needed to leave the hostel, or any similar reason. We also require that International Students must have a good level of English, not requiring additional language support, so they can fully engage in the curriculum, hostel life, and the opportunities on offer at the school.

Monitoring

The Principal will provide regular reporting on the financial and pastoral aspects of the enrolled international students to the Board.

Legislative compliance
